Karen Kingston is a biotech analyst and former Pfizer employee who has warned from the very beginning the dangers of the so-called CV19 "vaccines." Kingston repeatedly showed the dangers of the nanotechnology called mRNA.

Big Pharma patents say it is, in fact, an electromagnetic device that now is secretly slated to be in all vaccines. mRNA "synthetic biology" is also already showing up in our food, water and many medicines.

Big Tech will not be happy until it is in literally everything. Meanwhile, the public is waking up to the mRNA disaster with the CV19 bioweapon vax.

Kingston explains, "People are waking up to the fact the Covid 19 injections contain mRNA, and mRNA has been an epic failure. It's my understanding less than 2% of American got this last round of the boosters. . . .

Although people are waking up to the fact that the Covid injections or the mRNA injections are causing disease, disabilities and death, they are not preventing anything.

I think people are also waking up to the fact that mRNA is being used in all vaccines. This includes routine childhood vaccines and the annual flu vaccine. This is not being disclosed to them. Dr. Peter McCullough has said, and I said last year, no more shots—at all. . . .

They made this an Emergency Use Authorization, and that means the government will not be disclosing that to them. I think any of the shots is another big danger right now – and I mean any of these shots."

Big Pharma has big plans to put mRNA in everything: medicine, food, water. This is something people are going to have to work at to avoid.

Kingston says, "I no longer want my body or my child's body to be exposed to non-human DNA or bio-digital technology. I am going to do everything in my power to stop being inoculated with this stuff.

It's going to require people to find local farmers. It's going to require people to put their foot down and not get traditional medicines. They are putting this in pills. Dr. Ana Mihalcea (aka Dr. Ana) has found this in dental supplies like Novocain. Dr. Ana has found it in insulin, as well. Before the devil can destroy, he must deceive.

They have this Luciferian agenda. They don't want to suffer the wrath of God. So, they need us to agree to this inhumane criminal experimentation. If you say you don't agree to it, then the wrath of God falls back on them. This is also a spiritual war. I think this is why I was targeted.

The train has left the station, and you can't put it back. I think this is why Xi Jinping came to California recently. He met with bankers and Big tech and said this is how we silence people in China . . . . This is basically the Executive

Order (EO) Biden wrote, which I think was written by the CCP, on how to control the narrative in America. This EO will turn up the heat and make your life a living hell if you go outside that narrative. . . . That is going to go into place starting January 17, 2024."

Kingston contends that the synthetic biology and new mRNA creations by Big Pharma were predicted in the Bible. Kingston points out, "The same kind of chaos and tribulation the planet is going to go through is the same when God originally created all life forms.

The Bible says 'There has not been such tribulation since the days of creation that God created until now.' It is saying another entity started creating life. Verse 20 (Mark) says . . .

'Unless the Lord had shortened the days, no life would have been saved. So, for the sake of the elect, whom he chose, he shortened those days.' Other than God coming down with his wrath, I don't see how this is going to be stopped."

There is much more in the 54-minute interview.

Whilst I'm 100% sure, that this is an excellent source, the waffling about meds at the start of the video will limit it's acceptance, or turn off interest in her story. I for one am sure that she's spot on, but doubt it will garner support.

Apologies if it's not a good post Ian. The Lioness usually hits the spot. Unfortunately the vaxx was a phenomenal success killing millions, reducing fertility and shortening life spans across the human race, as it was intended to do from the start. We have to move on from this appalling loss and find a way to rediscover the promise of life.
